

CORONAVIRUS (COVID-19): A Message To Our Community

Florida Medical Clinic remains committed to the families we serve during this time of uncertainty. We would like to assure you that we are monitoring and updating our offices daily to continuously prepare for developments with the coronavirus. We take your safety seriously - it is our top priority.

ALL Florida Medical Clinic offices are open. We are taking all necessary precautions to keep our offices safe in order to provide the medical attention you need.

We understand you have a range of questions and concerns. As your trusted medical provider, we want to remain a part of your solution. To better prepare for your health and safety we have outlined the following information for you:

- **ALL Florida Medical Clinic offices remain open.**
- We are fully staffed and ready to help. Florida Medical Clinic has a dedicated team of health care professionals helping us manage our patients through this pandemic.
- If you should develop **symptoms** of coronavirus, please call your physician's office before coming in for a visit.
- All Florida Medical Clinic offices have implemented a screening questionnaire designed to identify whether or not you are at risk for Coronavirus infection. If you are at risk, we will guide you through the next step.
- Practice **"social distancing"**
- If you would like a medical evaluation from the safety of your home, consider using **Florida Medical Clinic Telemedicine services.**
- Stay safe and informed. Visit trusted websites, such as the **CDC's guide to keeping yourself safe,** for the latest health information.
